
EMPLOYMENT OPPORTUNITY: ARCHAEOLOGICAL FIELD TECHNICIAN

Recognizing the increased need for Mi'kmaq involvement in archaeological assessments taking place on the Mersey River, Boreas Heritage Consulting Inc.(BHCI), in association with Nova Scotia Power Inc., is currently seeking a Mi'kmaw candidate for a temporary Archaeological Field Technician position within the BHCI archaeological field and support team to assist in the assessment process.

Duration: Approximately 8 – 10 weeks beginning in September 2017
Salary: \$18.00/hr plus 4% vacation pay
Location: Mersey River – Big Falls & Lower Great Brook

Primary Role: Working under the direction of the Senior Archaeologist, Archaeological Supervisors and Project Manager, the primary role of the archaeological field technician is to undertake archaeological shovel testing at various locations along the Mersey River

Responsibilities:

- *Shovel testing
- *Screening
- *Assist with the identification, collection and processing of artifacts
- *Maintain equipment
- *Adherence to all safety policies, practices and procedures

Qualifications: No previous archaeological experience is necessary, however a High School Diploma or GED equivalency is an asset
Ability to undertake physically demanding manual labour activities in remote and difficult terrain, and, at times, under adverse weather conditions
Work long hours (10 hours/day)
Ability to work as part of a team

How to Apply: If you are interested, please contact Sara Beanlands:
